lors qu'Aria fait halte dans une auberge, elle est confrontée à un drame très étrange. Glunard, l'aubergiste, a été transformé en bille de pierre par un rayon maléfique. Sa femme, Ophale, est persuadée que son âme est prisonnière de cet écrin et qu'elle ne trouvera le repos qu'une fois libérée. Seul un draguédon, redoutable gardien des montagnes sacrées, pourrait briser la pierre. Aria décide d'accompagner Ophale dans les territoires interdits, pour tenter de lever cette malédiction.

Avec L'Âme captive, vingt-quatrième aventure d'"Aria". Michel Weyland apporte une coloration plus fantastique à cette série profondément humaine.
